Android Application for Aztec Shops Bookstore at
San Diego State University

Abstract

In today's tech-savvy world smartphones have become an indispensable part of our life due it its ability to simplify our routine work and thereby save time. San Diego State University Bookstore application helps students get easy access to the course materials students need for their classes. This application provides a personalized booklist for specific courses the student is registered for at the registrar's office at San Diego State University. The main functionalities of the app include student RedID and password validation, personalized class schedule, course materials per each class schedule, specific instructions/comments/notes, buyback option, personalized buyback, buyback location information and bookstore contact details. The primary focus of this application is to provide users the ability to access the prescribed booklist and related information with simplicity and ease.
