Web Portal for Clinical Psychology

Abstract

Provide a common platform for students and faculty members of Clinical Psychology Joint Doctorate Program to store data. The web portal will have different lists with personal and academic information of its members. Each list has different levels of access based on the user permissions. All the lists will have their own workflows to automate the process of data collection from faculty members and students.

Thesis Committee

Carl Eckberg, Thesis Chair, Department of Computer Science
Tao Xie, Department of Computer Science
Michael Taylor, Department of Psychology
