Job Description

Software Solution Intern (Job Number: P2933212212014)

Description

Position Title: Software Solution Intern

Position Location: San Diego, CA

Position Summary:

The Brady Internship Program provides interns with a "real-world" learning experience. Motivated individuals learn technical skills and build business relationships that can lead to success in the future. Brady recognizes that interns add tremendous value to the organization, providing new and innovative ideas and challenging the team to think outside the box. We are looking for a Computer Science/Computer Engineering intern who enjoys problem solving while working in a team environment. Responsibilities include researching customer requirements & processes and developing custom solutions to fulfill the requirements leveraging Brady software products. As solution intern, you will have the opportunity to work on a variety of technologies and methodologies: C#, SQL Server, Oracle, Web Services Integration, Office Automation, Mobile Application, Printing and Agile development. You will be part of Solutions Group working on real customer problem and help drive adoption of Brady software platform.

Position Requirements:

- Candidates for this position must be a Computer Science, or Computer Engineering Major with junior status or higher and have a career interest in problem solving and software development.
- He/she must have taken or must be currently enrolled in a minimum of two software development classes, preferably C#, VB, .NET or client server programming.
- Candidate must also communication skills, good work ethic, and the ability to work in a team environment as well as independently.
- He/she must be able to multi-task and adapt to an on-going, progressively changing work environment.
- Hours are flexible depending on class schedule during the school year and 40 hours/week during summer months have had exposure to object oriented programming, SQL and database design.
- The successful applicant will have a positive attitude, good analytical skills, good written/oral.

Position Duties and Responsibilities:

- Analyze Customer Requirements
- Leverage Brady Product to develop custom solution
• Write tools utilizing Excel, SQL Server and Oracle
• Develop custom reports
