Qualifications for UXUI Designer

Basic Qualifications:

- Some experience as a user experience designer, interaction designer, or similar role
- Proficiency in a variety of design tools such as Photoshop, Illustrator, Fireworks, InDesign, and Omnigraffle
- An online portfolio or samples of work demonstrating experience creating user-centered mobile design solutions is a requirement for application (personal projects okay.)
- The ability to create world-class mockups and style guides
- Demonstrated ability to work independently and as part of a team
- Fluency in best practices for mobile information architecture and design, as well as strong knowledge of usability principles and techniques
- Familiarity with the technical considerations needed when designing for the mobile devices
- Almost done with Bachelors degree in design, human-computer interaction (HCI), or equivalent professional experience
- Demonstrated visual design expertise; capacity for creating fun, highly usable designs and layouts, and a propensity towards simplification
- The ability to quickly turn around rigorous wireframes and mockups quickly in a fast-paced, iterative environment
- The ability to scope design deliverables accurately and prioritize work items appropriately

Preferred Qualifications:

- Ability to prototype in HTML, JavaScript, and CSS
- Visual design expertise demonstrated through work samples
- Retail and eCommerce design experience is a plus
- Experience designing user experiences for modern wireless phones and connected devices
- Demonstrated knowledge of Android and iOS user interface design principles
- Technical fluency; comfort understanding and discussing architectural concepts, schedule tradeoffs and new opportunities with technical team members

Compensation: Equity only now. Salary and benefits to follow once we secure more funding.

Please include a link to some of your work. Also if you have worked with any software developers who produce top quality work please refer them to us.

If we think you will be a good fit we will contact you. We will require you to sign an NDA and NCA once we choose our candidates.

If interested email resumes to dlandsman3@gmail.com
