

Controlled Communication/Messaging Platform (web & mobile app)

Looking for a very bright individual or small team to build out a solution for national sports camp business where parents and coaches can communicate through the controlled communication platform. It should allow for easy payment, scheduling and follow-up between customer and coach, and allow the coach to mark lessons as rendered very easily. Customer, Coach and Company payment status, service rendering and communications should always be in sync through the app at all times. Company should be able to run reports to see what coaches generate what revenue and see a list of top performing coaches and top generating customers. See [DETAILED Dropbox link](#) for the project specs/objectives.

Apply directly to owner Brent Grablachoff at www.kickingworld.com/contact or [619-564-1333](tel:619-564-1333).

Company: Kicking World

Opportunity: Paid

Budget: \$4,000 USD
