FANCLIQ

Database Expert

FANCLIQ is 3 years in the making and is pre-launch. FANCLIQ is image centric social media for youth sports that is wrapped around an Uber business model for photographers. Our business is national in reach and we are currently relocating our systems from Boulder, Colorado to San Diego.

We need two key players, a database expert and an iOS guru to assist with the systems relocation. Our two new hires will likely become the cornerstones of our tech team being assembled here in San Diego.

Responsibilities:
• Migrate current system from a proprietary platform
• Migrate system to Ruby on Rails or other reputable platform
• Select and implement a completely scalable database solution
• Deliver polished professional product

Required Skills:
• Extensive experience of database applications
• Solid understanding of systems migration
• Strong technical, problem-solving, and communication skills

Desired Skills and Experience
• Experience with systems migration and platform selection
• Interest in sports and photography
• Energetic critical thinker
• Leadership ability
• Professional attitude
