

About FIT Solutions:

FIT Solutions is a fast growing, highly successful IT Services firm. Our secret sauce is to couple state of the art technology and the best technical professionals to create the highest level of service in the industry. We make it our aim to create the best engineer environment possible so that everyone thrives and loves their job.

In each of the last 4 years we have doubled our size. How we deliver service is completely unique and changing our industry. Now we want to leverage our reputation and talent to help expand our services nationally. We have a knack for finding great people that want enjoyable, fulfilling, competitive work.

What You Get To Do:

- Be apart of and learn about consulting on all technical levels with decision makers.
- Learn to expand existing relationships through proactive engineer consulting and problem solving.
- Work with some of the most experienced engineers on the industry.

What's In It For You:

Our culture is performance-oriented, goals driven, collaborative and fun. Our Engineers work together on all levels of challenges across dozens of clients which provides each engineer full exposure to different environments and projects. This position is a paid internship, \$11.50/hr., Schedules are flexible, we will work with your school schedule.
