- Recommended: Interested applicants go to USAJOBS.GOV
- Build or load your resume now prior to the announcements being posted
- HSI offers competitive starting salaries
- HSI offers advanced training, including advanced InfoSec certifications

### Come join the HSI Team!

HSI is the principal investigative arm of the U.S. Department of Homeland Security. HSI is responsible for investigating violations of U.S. laws pertaining to border security, homeland security, and public safety—all of HSI's mission sets have a nexus to those three areas. HSI is DHS' largest investigative law enforcement presence overseas. HSI advances U.S. based investigations through coordination with foreign counterparts; disrupts transnational criminal organizations before they bring illicit products, people, and proceeds into or out of the United States.

HSI San Diego is currently accepting resumes from prospective candidates. Resumes (no supporting documentation) are being accepted at [jason.rissman@dhs.gov](mailto:jason.rissman@dhs.gov). Your resumes will be date stamped once the announcement opens. NOTE: Candidates **MUST** still apply under the upcoming announcements via USAJOBS.GOV. Complete details regarding the position will be available once the announcement opens.

The Department's compelling mission draws candidates seeking to join a team that makes a difference in the lives of their fellow citizens. The threats and challenges facing the Department and the Nation are complex and constantly evolving. Now more than ever, DHS must recruit, develop, and retain a talented and diverse workforce.
