Job ID# 6399BR
Company General Atomics Aeronautical Systems
Title SOFTWARE ENGINEERING INTERN
Job Category Engineering
City San Diego
State California
Regular/Temp Temp Employee
Full-Time/Part-Time Part-Time Hourly

Job Summary
General Atomics Aeronautical Systems, Inc. (GA-ASI), an affiliate of General Atomics, is a world leader in proven, reliable remotely piloted aircraft and tactical reconnaissance radars, as well as advanced high-resolution surveillance systems.

We have an immediate Temporary opportunity for a computer science or electrical engineering undergraduate student to intern at our Mission Systems division within the advanced algorithms group of our Software Engineering Department. This will be a year round opportunity.

Duties & Responsibilities:

- Assist software engineer in day to day task and activities.
- Dictate and explain complex algorithms to another employee.
- Design and perform research, analysis, and experiments as requested.
- Develop electronic and hard copy reports, diagrams, and charts summarizing the results of the requested research, analysis, or experiment.
- Conduct web searches and typeset technical articles utilizing Microsoft Word and excel.
- Prepare Power Point presentations in Microsoft Powerpoint.
- Conduct research on digital signal processing.

Job Qualifications
- Typically requires enrollment as an undergraduate or graduate student at a recognized college or university.
- Previous experience programming in C, C++ and MATLAB.
- Previous experience with MS Office Suite.
