Software Engineer ~ Intern

At InnovaSystems, we seek to empower talented professionals to perform at their best potential, to optimize their unique skills through collaboration and ongoing professional development, and thrive in a culture of excellence that embraces innovation in leading-edge technology development. We have a few roles available on a small, agile and innovative team: Inspire! It is a performance management application that is both web and iOS–based. We seek those that are highly motivated; who can learn quickly and work well independently as well as with other team members.

Gain work experience in one of two areas:

- Web Development
  - Single Page Application Development
- Mobile Development
  - iOS (Swift), Android, and Windows Phone Development

Locations and positions available:
- Draper, UT (x2)
- San Diego, CA (x2)
- Norfolk, VA (x2)

Education Requirements
- Junior or Senior in Computer Science or related field

Skills and Abilities
- Ability to work in a team environment
- Ability to demonstrate a pro-active attitude
- Able to demonstrate a willingness and ability to learn
- Ability to act as a self-starter, working proactively to meet or exceed individual and team goals
- Demonstration of attention to detail and quality in all work performed

Additional Requirements:
- US Citizenship is required. Applicants selected may be subject to a security clearance investigation and must meet eligibility requirements for access to classified information.

About InnovaSystems International
Creating extraordinary solutions through innovative software. Together.
