**Technical/Functional Skills for the Java/C# Developer:**

- 2+ years of experience with Java/C# development.
- 2+ years of experience with JavaScript and Web Development.
- Experience in developing client and server based applications.
- Experience with developing solutions which apply object oriented principles.
- Knowledge of agile or scrum methodology.
- UI Implementation for Web Applications using HTML, CSS and JavaScript.
- Experience with SQL database, preferably Microsoft.
- Excellent project management skills, ability to work with various databases and custom applications.

**Qualifications for the Java/C# Developer:**

- Bachelor's Degree in Information Systems or related degree, or equivalent work experience. Masters Preferred.
- Experience gathering and analyzing user requirements.
- Excellent verbal and written communication skills.
- Excellent documentation and knowledge management skills.
- Strong problem solving skills.
- Candidate must be comfortable working independently and within a team environment in a fast
paced, results oriented environment.
• Ability to work on multiple projects concurrently.
• Project Management designation a plus.

About ARS

For 20 years, ARS has built well-established partnerships with the world’s largest, most sophisticated financial services organizations, including major banks and credit card companies.

Enjoy benefits and perks beyond the expected

Health- Medical insurance, dental insurance and more are all part of your benefits package. You can also take advantage of our progressive employee well-being program. We offer annual health risk assessments and paid time off for preventative medical appointments. Our “Biggest Loser” participants have lost a total of more than 4,000 pounds. And 20 percent of employees who smoke used our program to quit.

Lifestyle- With on-site yoga, kickboxing, massages, walking clubs and our 10-year employee sabbatical program, where our employees earn a month long paid vacation, ARS benefits help you create the right balance of work, life and dreams.

Culture- Working in a positive atmosphere that celebrates the individual. Collaborate and converse with people at every level of the company, thanks to our zero-gravity communications policy.

See if you have what it takes to join the ARS team, send your resume to sam.hansen@arsnational.com.
