SAIC is a Science and Technology government contractor and have a need for an entry level computer science or computer engineering graduating senior who wants to be part of a .Net team of developers working on state of the art web applications. The candidates do need to be US citizens as they will have to get a Secret Clearance.

This is a great opportunity for one of your top students. Please take a look at the job description and let me know if you have any questions.

Students need to apply on-line at our career site. [www.saic.com/about/careers](http://www.saic.com/about/careers) Requisition # 402491. Feel free to send me resumes on students that you would recommend. Thanks for your time.

SAIC has a job opening for an Entry Level .Net Developer to work at our facility in San Diego, CA

JOB DESCRIPTION: The .Net Developer will be part of a team to development of a mission-critical SOA application utilizing the state-of-the-art .Net technologies/products (e.g, AppFabric, Biz Talk) and Agile development for a DoD customer.

The .Net Developer will have a strong academic record in computer science or a related major and possess a strong problem solving skill and the ability to learn new technologies quickly. The .Net Developer will work in an Agile development team as a developer, and will be involved in the entire software development lifecycle to develop an n-tier, Web-based .NET application that can run in cloud computing infrastructure. Specific responsibilities of the candidate will include:

- Participate in gathering and analyzing user requirements
- Participate in detailed object-oriented analysis and design
- Develop code in accordance with the design
- Write unit test cases for inclusion in Continuous Integration
- Participate in resolving technical issues that may arise during development

REQUIRED EDUCATION AND EXPERIENCE: Bachelor’s degree in computer science or a related major. An additional 4 years of experience may be substituted for a bachelor’s degree.

- Experience with Web Development (Visual Studio IDE, HTML, CSS, Javascript, [ASP.NET](http://www.asp.net))
- Experience with Database Development (SQL)
- Experience with common Software Engineering best practices
- Experience with common Software Engineering concepts (SDLC, OOP, Data Structures)
- Must have or be able to obtain a Secret Clearance
DESIRED EXPERIENCE:

- Experience with C# and VB.Net
- Experience with Emerging Technologies in Web Development
- Experience with Software Security
- Experience with Source Control and Branching
- Experience with Unit Testing
- Experience in Agile Development
